

The "Classic Line by Screen Research", is an affordable range of for high quality video projection screens for Home Theater installations. Manufactured in Europe, easy to configure and fast to install, the products offers advanced design features unmatched before in this price category, as the highly recognized and ISF certified SolidPix™ screen surfaces for superior image fidelity.

On-Wall Motorized Screen

The specificity of this product is the attention brought to the design in order to get a perfect result, an ideal flat surface and a quiet mechanism. Automatic adjustable tab-tensioning system, highly precise black borders applied with high frequency welding, vibration proof and silent stop motors, crease proof, fold-free rolling mechanism, are just examples of the attention to detail and quality that is characteristic of this product.

Depending on your aesthetic preferences, you can choose between of 2 different systems of lateral tensioning of the screen surface: Classic or Constant Tensioning System, that are both very efficient and do not require any adjustment.

All the visible and invisible features of this product will guaranty an enjoyable and durable home theater experience.

ON-Wall Motorized Classic version

ON-Wall Motorized CTS version

Screen Surface:

- > SolidPix™ High Definition screen surface
- > Matte White or Dark Grey for ambient light compatibility
- > Imaging Science Foundation (ISF) certification
- > Micro-perforated version for acoustically transparent applications (PerfPix)

Features:

- > Casing available in White or Black
- > Classic or Constant Tensioning system available
- > Crease proof, fold free technology
- > Vibration proof and silent stop motors

Standard accessories:

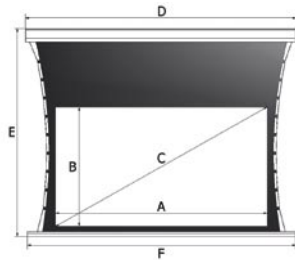

- > Wall-Ceiling mount brackets

Optional accessories:

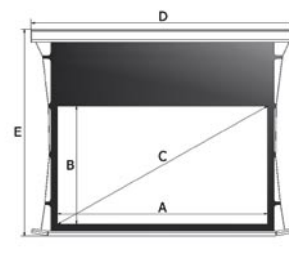

- > Infrared or Radio Frequency remote control
- > Additional Top Black Drop Length
